

Request: pick up a couple of items at the Cave when you go there next week

Dan Gravatt to: Tom Mahler

01/04/2013 09:14 AM

Tom,

Chuck tells me you'll be at the Cave next week. If you are willing, would you bring the following items back to me at the RO? I plan to use them at a public meeting in a couple of weeks.

- The NaI gamma detector that has the 150-foot cable and the Ludlum ratemeter that is calibrated for that detector.

- Two bags of bentonite. Chuck said he found and used one full, 50-lbs, bag of Econoplug Wyoming bentonite (sodium bentonite) and 1/2 bag of Volclay, sodium bentonite, appears to be mined from Illinois. I want to demonstrate the test Chuck did on these during the public meeting.

Mark Zipf should know where all of these items are. If you can't grab them while you are there, let me know and I'll find another way to get them.

Thanks!
